Why People take the Sentinel.

From among a large number of lutters, anclong andscriptions for the Daily, Tri-Weekly, or Weekly Sentinel, received during the past two, or three weeks, we take leave to publish the following extracts, suppressing only the names : ____ Dodge Co., Dec. 29.

I send \$1,00 for the Weekly Scatinel. This is the first Whig paper for which I ever subscribed; which is not now done so much for its political, as for its reliable general news; though your course on the Nebraska question meets my *pprobation. Mr. King will realize my position in politics, under this new order of things, when he learns that I was a radical Democrat of Delaware County, New York. Let me further say that my Democracy is of that stamp that will not permit me to vote for, or aid in any way, any man who favored the Nebraska business. Yours respectfully,

Rrown County, Dec. 31. Enclosed please find \$3,00 for tri weekly Sentinel, commencing with 1855. Please forward without delay to my address. I never consider my self " posted up" unless I read the Sentinel and then I think " I know it all."

Yours truly,

Ford du Lac, Jan. 21. A democratic friend of mine wants the Weekly Sentinel for a year and I onclose you \$1,00. Bad business, this circulating your Whig papers among Democrats, but "Slavery extension" can't be swallowed. Your friend,

This last letter couses from a prominent and in fluential Democrat in the North. We might mulliply those extracts, but the above will serve as fair samples of several hundred letters, received at our office during the present month of January. popular appreciation of, and confidence in the teachings of the Sentinel, and shall strive all the more to deserve the good opinions and substanial patronage of the People of Wisconsin.

Now AND THEN—We find in the Milwauker Sentinet of the 17th, a very handsome notice of the Report of the Improvement Company, in which the work is spoken of as an "important onterprise." a "great Improvement." and so on. There was some difference in the talk of that paper a year or two ego, when it was possible that active and keen opposition might crush it, but it has got past the possibility of failure now, and like successful men, finds new and numerous friends. We are glad, however, to welcome them—the Sentinel among the number.—[Green Bay Advicate.] Now and Tush - We find in the Milwauker

We are sorry to be obliged to characterize the above paragraph as both ungracious and untrue. The Sentrael talks now of this Improvement precisely as it did"a year or two ago." We have wished the outerprise well, frees the start, and never laid a straw in its way. On the contrary, we have repeatedly taken occasion to speak, favorably of it, its projectors and managers; because we regarded the work as one of great importance not to the North only, but to the State at large The Sentinel did indeed sharply censure the State management of this improvement, and surrestly advocated its transfer to a private Company. And none now question the wisdom of that policy. But so far from "crushing," this course eased the Improvement, and the Sentine descrives the thanks, instead of the taunts of the Green Bay Advocate, for the language which it ded on this subject:

The Editorial Convention.—This convention, which met in Zancaville last week, was one of the best gatherings we have ever attended; our only regret is that there were not more of the brethern in attendance. We can assure those who were absent that they were losers by their non-appearance. Too much credit cannot be given to the editorial frathrnity of Zancaville. They performed their duties with admirable skill, and are entitled to "all the honora." We believe these yearly gatherings will do much good.—They bring the editors together, they form pleasant acquaintance, and infuse into the cruft the sentiment of mutual respect and personal honor, the good effect of which will be seen in the abandonment of personalities in our newspaper controversies. We believe also that they will result in establishing throughout the State the system of cash payments in advance, which would be of incalculable benefit to editors and publishers. At these conventions may valuable suggestions are made, and much statistical information is obtained. The editors from the various parts of the State, who were present at Zaucaville, all went home well, pleased, and with a determination, if alive and well, to meet again in January next at Columbus. We hope to be those also, and to see every editor in Ohio present on the occasion. We shall do our part to effect "a consummation so devontly to be wished."—[Cincinnati Gazotte.

The Railroads.—The Aurora cars went out on Thursday, but did not get through. In attempting to return in the night, they ran into a mowdrift about six miles from the city, where they stuck fast. The water in the boiler froze up, so that the track could not be cleared yesterday morning, and the Galena train was unable to get in.

The road to Dixon had not been opened up to last night.

The Western and South Western roads are still interrupted. The Galana road was closed again by wind and light drifting anow of Thursday, and at 10 o'clock yesterday morning the train which loft Aurora Thursday night was six miles distant from this city, with all the aix engines frames up completely. There were a large number of passengers, owing to former delays. Engines were dispatched from this city to bring them in, and suncessed in doing so last evening. But the trains were not to start till the morning. The Rock Island trains which started yesterday morning were unable to proceed beyond a distance of eight miles from the city.
